

What are the advantages of Cenospheres?

100% Recycled Non-toxic Inert

Reduced Weight

Filler Loading Reduced Shrinkage

Thermal Reflectivity

Heat Retention Energy Conserving

Strength

Bonding & Structure Pozzolonic Reactivity

Shielding

Sound Buffering Weather Proofing Heat Insulation

Refractory

Foundries,
High Temp.Coatings
Heat Retention

Sphericity

Ball Bearing Effect Reduced Friction Porosity Reduction

How are Cenospheres used? Ceramics Paints & **Coatings** Building Composites **Materials** Construction **Adhesives Automotive Epoxies** & Cements & Solvents Aerospace Oil Fields Construction
